

High Quality Care Provider Network Updates for the North Central Region

At Community Care, we believe that you should have timely access to appointments, especially after getting out of the hospital. This will give you a better chance of staying out of the hospital and a better chance of recovering.

Your provider should give you an appointment within 7 days of getting out of the hospital. Your provider should also give you an appointment:

- Immediately if you have a life-threatening emergency.
- Within one hour if you have an emergency that is not life-threatening.
- Within 24 hours if you have an urgent need.
- Within seven days if you have a routine behavioral health need.

Call Community Care if you have a problem getting an appointment within these time frames. If you tell us about the things that make it hard for you to keep your behavioral health appointments (such as transportation), we will work with you on ways to keep your appointments.

Please see page 1 for the toll-free number to call.
