RE: Alert # 7 10-12-2011 – HCAL, HCCH, HCYA, HCBK, HCKK, HCER, HCNE, HCNC

UPDATED: January 2012

Dear Provider:

Community Care has received many comments regarding this provider alert. In response, we have made some modifications including:

a) Clarification of the expectations for both providers whose services include psychiatrists and those who do not;

b) Clarification of the expectations for monitoring of children; and

c) Correction of an error in the Antipsychotic metabolic monitoring table

In addition, as noted, we will be offering trainings early in 2012 on BMI assessment for both adults and children.

Thank you
