ICD-10 Implementation Reminders

The U.S. Department of Health and Human Services has mandated that the ICD-9 Diagnosis Codes used by both medical coders and billers to report health care diagnoses change to the ICD-10 Diagnosis Code set as of October 1, 2015.

As of October 1, 2015, the ICD-10 Diagnosis Code set will replace the ICD-9 Diagnosis Code set. As of October 1, 2015, **DO NOT populate both ICD-10 and ICD-9 codes on one claim form billed electronically or paper.** Please refer to the instructions outlined in the Community Care Alert #9, dated 07-21-2015. You may also refer to the Provider Resources section of the Community Care website, [www.ccbh.com](http://www.ccbh.com).

Please contact your respective project coordinator in the Provider Reimbursement Department to discuss ICD-9 or ICD-10 billing questions.
